Dan Chanivet

Argentina > Buenos Aires

Gender: Male, Age: 36 years

Profile

Fullstack Web Developer with over 4+ years of experience in programming through different companies in IT. I use to develop the MERNT stack creating beautiful websites and experiences for users in real time.

I have strong backend skills creating servers, middlewares, routes, APIs with nodejs and expressjs. When it comes to persist user's data I usually work with nosql database MongoDB Atlas Cloud environment.

My native tongue is Spanish but I'm fluent in English too. I have experience working remotely with customers from EE.UU. keeping conversations for a long time in English. As a highly motivated, professional and organized person, I enjoy a fast-paced and collaborative team environments.

I'm feel ready to take the next big step in my career and I'm looking for a remotely job in a foreing company that allow me grow up as a programmer and being a better human.
